

Earth Day on Film!

With Earth Day coming in April, we have put together a brand new program with fun and exciting scenes featuring relatable characters. We'll see children and adults who actively work to preserve our air, land, or water, and the creatures who live in, on, or in it! Enjoy thrilling scenes from films such as *Moana*, *The Black Stallion*, and *The Lord of the Rings* as we follow characters who inspire us to honor the Earth and all living things!

Our presenter arrives at your location with a collection of DVDs suited to the topic. You supply the DVD viewing equipment and the eager audience. Our presenter is happy to come to your school, library or other facility and preview this presentation. Pricing up to 100 people; larger groups contact *Marquee FilmTalks*.

Versions available in 30, 45, 60, and 90 minutes • One program in a day - \$100, Two - \$125, Three - \$175, Four or more, \$200
